

# THE CLARETIAN

## A TIME TO REFLECT AND CELEBRATE

TAPANG, BERNADETTE M. 11/18/2021 1:35 pm Edited 34 19

### GS 1st Trimester Online Viewing of Grades

**IMPORTANT!**  
The Grade School online viewing of report card will start on **November 19 in the afternoon**, through the CSQC SchoolAide System <https://schoolaide.claretschool.edu.ph/>  
Please refer to the following procedure:

You may email:  
**registrar@claretschool.edu.ph** for questions in accessing the report card  
**support@claretschool.edu.ph** for concerns regarding Parent Account

or call the Registrar's Office:  
89216617 | 89217554 loc. 264, 210, 237, & 221

### Online Viewing of Report Cards

The Registrar's Office announced the online viewing of the report cards for the grade school students on November 19, 2021 through the CSQC School Aide System.

This announcement sent a gush of excitement to most of the grade school students as well as their parents, as they were going to see the results of their hard work during the First Grading Period. When they checked the results, some got high marks, some average, and some low. This made the students happy, motivated or pumped up to do better this trimester, aiming for their goals.

*Karl Alrick Zuriel S. Bilog*  
*6-Biblical*

**Congratulations!**

# Letter from the Editor

Dear Claretians,

As we all welcome the new year with renewed hope and stronger faith, let us all pray that God will continue to bless us all and set us free from the CoVid-19 pandemic. We pray that He gives us the strength to commit to overcoming all the pains, bitterness, hurts and fears that were brought by the worldwide disease.

Indeed, many people struggle to form commitment in other areas of their lives, such as limiting time on gaming, dieting, exercising, or other forms of self-care. Keeping a resolution is challenging, but it doesn't have to be very hard. Here are some tips that will help you commit to your resolutions this year:

1. Your resolutions must be based on a strong purpose, aimed to lead to a better state of life.
2. Your resolution must be realistic. Learn to set a goal or choose to make a change of behavior that you see yourself following through on.
3. Make a concrete plan of action towards achieving your resolution.
4. Make a public declaration of your resolution. Accountability to your commitment is established when you make public declaration.
5. Reward yourself in order to have a stronger motivation every time you advance towards your resolution/goal.

I hope you would find these tips useful as we all face the new year with better perspectives and great resolutions that are aimed to achieve a better way of living.

# A Christmas Presentation of Hope

On December 15, 2021, we witnessed a marvelous Christmas presentation by the Grade School Unit. **TALA Isang Pagtatanghal**, was held last December 15, 2021 via MS Teams. It featured instrumentals and song and dance numbers of different forms which were made extra special because each of them was performed by all grade levels. It was so refreshing to see our Claretian brothers dance and sing with all their hearts and give it their all.

A skit tied the whole presentation together wherein a child and his dad were seen making a parol together. The parol was used because, much like the star which gave hope that eventually led the three kings to Jesus Christ during His birth, it now also serves as a sign of hope for everyone.

The presentation featured different numbers. Our little brothers and sisters from Kindergarten cutely danced to *"Kumukutikutitap."* The primary levels did acrostics depicting statements about caring and giving, an interpretative dance of *"Mary's Boy Child"*, and sang *"Tuloy na Tuloy pa rin ang Pasko."* The intermediate levels did acrostics on hope, showed us the life and mission of St. Anthony Mary Claret through role-play and moving pictures, and sang *"Nandito Tayo Para sa Isa't-Isa."* We were entertained by different clubs, too. The Children's Theater Club opened the program with *"Joy to the World"*, the Dance Club rocked the stage with their rendition of *"Pasko sa Pinas"*, and we were serenaded by our very own Claretian Pop Singers with *"Give Love on Christmas Day."*

This wonderful project was spearheaded by our very own, Mrs. Hazel P. Copiaco, Assistant Principal for Student Affairs, and Mr. Emilio Jacinto Jr., Art teacher. According to them, the theme for this year's Christmas presentation was HOPE, which was so aptly chosen to convey hope during this difficult time of the pandemic. This year has been difficult for all of us but we cling to hope. That amidst all of the confusion and fear that the pandemic has brought, God is with us, has always been and will always be. And like the parol that lights our Christmas trees, let us remember that Jesus is the light of the world and His birth brought hope and healing. May we all remain hopeful that we will get through this difficult time together and may we never forget to be kind to one another.

# Gaudete Party

Last December 17, 2021, from 11:00 to 12:10 P.M., Claret School of Quezon City conducted its Gaudete fellowship party. The party was held simultaneously in all levels. It was an opportunity for the homeroom classes to bond and enjoy the season's festivities together. The event program included the following: prayer and praising for God, followed by games and socialization. Some common games, such as bring me, charades, etc., were Christmas-themed to match the holiday season. All of the games were created by representatives or homeroom advisors to make it more relatable and more fun. By lunch time, the participants were allowed to eat even while the session was ongoing to make it more comfortable for the students. At the very end of the Gaudete Party, a closing prayer was led by the assigned student to express sincere appreciation to the Lord for all the blessings despite the Pandemic. The Gaudete party was indeed a celebration where students were able to enjoy the time that they had with their teachers and classmates this 2021 and jointly express sincere thanksgiving before the students proceed to their two-week vacation starting December 18 to January 5, 2022.

Fun Fact: **Gaudete** is latin for "rejoice". In the Catholic calendar, Gaudete Sunday is celebrated on the 3rd Sunday of Advent, which reminds us to rejoice for Jesus, our Savior, will soon arrive.

## **Christian Raymond C. Solidum**

6- Charismatic

As we all embark in facing the Year 2022, may we all remain resilient, strong in our faith, and our hearts filled with hope to counter all the negativities, anxieties, and heartaches brought by the CoVid-19 Pandemic. In the past 2 years, God has challenged our faith and put our Christian commitment to the test. Amongst us Claretians, we were likewise tested on how we would best show the Claretian values in the last two years of difficulties. Many of us have genuinely shown compassion

among the many who suffered during the pandemic – the families who got seriously ill or have lost their loved ones, the health workers that sacrificed their lives to save others, the drivers and conductors who lost jobs, the less-fortunate families who do not know where to find food day-by-day, and many others whose lives were broken. All these situations have inspired us to share more, be compassionate, selflessly provide service to others, be empowered, and show excellence as we think of innovative and adaptive ways to help others. We have appreciated the value of life even more and have shown respect for life as we protected each other from the CoVid-19 infection.

Even last Christmas 2020, with the varying levels of restrictions in place, we have witnessed how Filipinos have looked to the brighter side of things. We did not allow the pandemic to ruin the most important season of the year. Filipinos always found ways to have fun and enjoy the holiday season with much hope and vigor with friends and family even if it's done online. We made the most of a difficult situation. We have been resilient these past years despite the pandemic and the various difficulties it has brought to the Philippines and the world at large, yet, the essence of Christmas remains the same. One interesting article written by Archbishop Dr. Panti Filibus Musa, acknowledged how difficult it was to experience joy and peace in these uncertain times. Social distancing and the limitations of physical contact have forced us to reconsider our priorities, thus giving us a chance to pray and reflect more. We learned to be kinder, less self-centered, and more attentive to our neighbors in need. Throughout this tough time, we witnessed kind acts of selflessness in our fellow Filipinos. Even though the pandemic still rages on and new variants are still being detected, we remain strong and resilient, and continue to choose kindness and selflessness, with deep empathy and compassion for others.

In these days of fear, doubt, and isolation, let us remember that a renewed hope, strong faith in God, and genuine commitment to be of service to others will continue to guide us and make us more resilient and we navigate through our paths for 2022, together with our loving family, friends, teachers and school administrators, neighbors and many others whom we will cross paths with in the future.

# THE CLARETIAN SPECIAL FEATURE: CLARETIANS ABROAD

With the pandemic limiting face-to-face learning, some Claretian students and their families opted to spend the school year outside the Philippines. Let's learn more about these inspiring Claretians.

## Learning From Far Far Away

Hello teachers and schoolmates! I am writing this today from the Golden State of California. The weather outside is very cold. Winter season has started. The mountains are now covered in snow.

I arrived here last July 2021. I traveled with my Dad, Mom and my little sister. Flying during a pandemic was an experience. The swab test made me nervous. I sneezed so hard after it was inserted in my nose! We were wearing face masks, face shields, air filters and carried alcohol spray holders. We were like soldiers going to battle. The airport was a ghost town. There were also some passengers in hazmat suits. It was like a scene from a movie!

Still, I felt excited for our voyage, because it was our first time to travel since CoVid-19 started. The last time we were in San Francisco was in 2017.

I start my online classes at 4:00 PM and finish at 8:10 PM just in time for dinner. The best thing about my class schedule is that I don't have to wake up early every morning. Hooray! This means that I could do my homework before going to bed. I wake up early only when there are long tests. During weekends, my sister and I go to a library, or to the pool. We also hang out in the park, or visit a museum or hike up the mountains. There are a million things to do here for kids, unlike back in Manila where all we see are malls and horrible traffic.

Learning from far far away has taught me a lot of things. First, I learned the value of discipline. Having the right study habits is important so I can keep up with the tasks given by my teachers, even if we have a big time difference. Second, I learned the value of participating during class. Getting compliments from my teachers makes me feel happy and confident. Third, I learned how to appreciate our teachers more. It is so difficult to teach while talking to a laptop or computer. They have been so patient and understanding all the time.

Fourth, I learned the value of family. My parents have been my teachers at home. Learning would be impossible without them. My parents said that home is always where the family is. The important thing is our family is always together. Lastly, I learned the value of praying. God has been very good to me and my family during our trip. He has kept us safe and healthy all this time. Prayers are really powerful!

I miss my Grandpa, Lolo and Lola back in Manila. I am excited to go back to Claret School to be with friends and teachers and to learn face to face. I hope we can all finally see each other again next school year.

## Nigel's Story

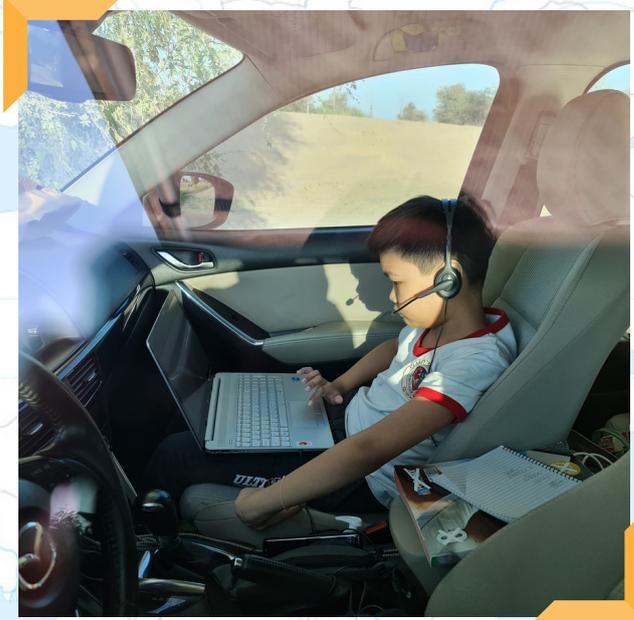

It was October this year when my parents took the opportunity and brought me here to Dubai where they both work as expatriates. Due to the COVID-19 pandemic, for almost two years my parents were not able to visit home. When the airline companies finally resumed regular flights and the government eased the travel & quarantine protocols, my mom went home for a short period to pick me up, then we both flew back here to UAE.

In the outset of COVID-19 pandemic, Claret School of Quezon City shifted to the Online Distance Learning program. It's a privilege for students like me to continue learning online without requiring physical contact with teachers and classmates. Because of this setting, it gave me the opportunity to continue my schooling away from home even if I'm outside of the country.

And so, my journey of attending class while in Dubai began!

Manila is 4 hours ahead of Dubai and with this time difference, every day I must wake up as early as 3:15 A.M. in the wee hours to be able to keep up with my 8:00 A.M. PH time class. At first, it was a bit difficult to adjust physically and mentally, but eventually I got used to it. It became my daily routine. Although I wake up very early for my class, it also finishes early at 8:00 A.M. Dubai time, which is great because I have more time to play after and bond with my baby brother!

My parents wake up early as well to help prepare for the class. They also sacrifice their time, and they must leave for work in the morning at 6:30 A.M.

All these sacrifices we must do as a team in exchange for the family to be together.

My parents are off work during Fridays and Saturdays as it's officially the weekend here in the Middle East. So when we have weekend getaways, we either go to the beach or go camping in the desert. I still attend my Friday classes while on the road until we reach our destination. My teachers and classmates don't even notice that I'm inside the car doing my class, which is pretty cool!

With online distance learning, I find it a unique experience as it's a totally different setting from a standard learning inside the school. Learning continues wherever you are, even if you're away from home or abroad. Though it's virtual, in my opinion, it offers a fair amount of things one can learn. And we also owe it to our hardworking teachers.

So for now, I will continue my ODL class here in Dubai for the whole school year!

**Nigel Joaquin D. Nacino**

## My Study Habits

Study habits are routines that are used to help students have a comfortable learning experience and at the same time, boost the students' academic performance. These help the students to maximize their true potential on their knowledge, skills and abilities. Study habits are the habits inculcated to one's behavior through repeated practice of study and hard work over a period of time. I am happy that with the guidance and motivation of my parents, I was able to establish a study habit that made my learning experience comfortable and levelled-up my pursuit to excellence. I will present to you my ways on how to practice study habits into our studies and even in life.

My first goal in my study habit is to avoid cramming by learning how to manage my time. This is the most important to learn because it helps us to keep up with our tasks and at the same time, we get a decent time to understand better and work out our tasks or assignment. By factoring this goal, it helps us to avoid stress caused by unaccomplished tasks or failing to do a task.

Second one is, through good study habit, we tend to eliminate distractions that may lose our focus on learning and studying. Having a focused mind helps us think better, deeper, and more critically. It also helps us analyze and understand what we are reading or what were assigned to us to do.

The third one is being attentive by taking down notes and reviewing it afterwards. You may also review your class materials, books, and references. With this kind of habit, you have a better and deeper understanding of the lesson. It reminds the student about the lesson, meaning, that a student has a rather complete and intact understanding of the lesson or tasks. Fourth one is to never procrastinate your well-planned study session. Planning your study session is important but doing it is the one that matter the most. So do not postpone, it or you may cram and fail your tasks. Sticking to your plan is important to avoid things being forgotten in the process.

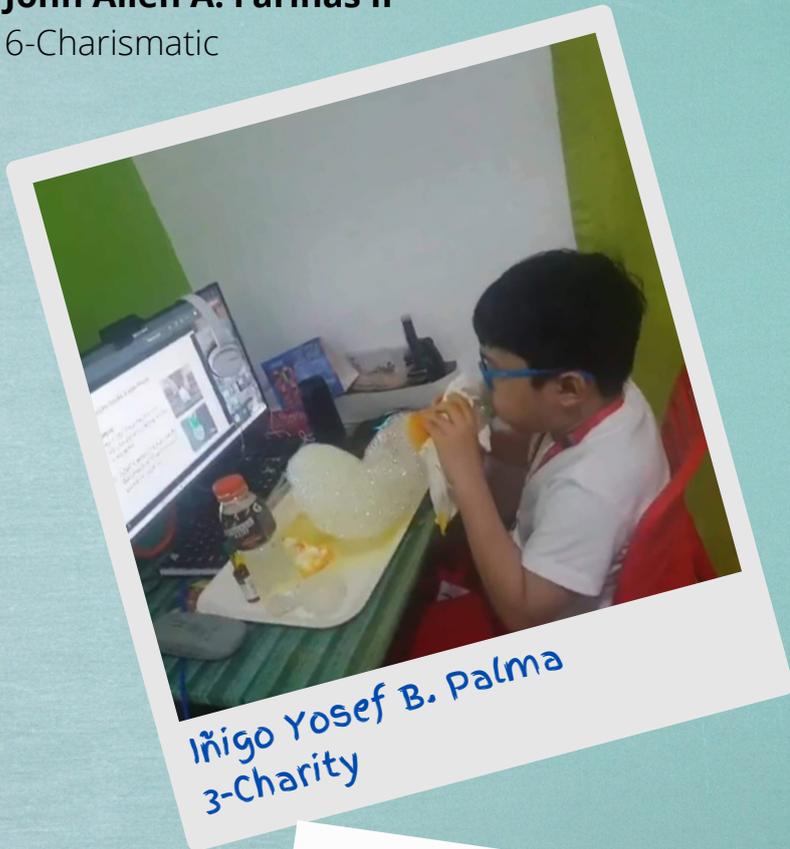

Lastly, you must set a goal and motivate yourself to achieve that goal. Whenever you are studying, you must be reminded that you are doing this to reach your goal. You are doing it because you have a higher purpose. This helps you to study harder and have a positive attitude towards it. What makes study habits applicable or practical is that you could use it every day. We can apply it in our daily life. For example, in doing our household chores, we need a certain plan and habit so that doing that kind of job is easier or much comfortable like when we are washing dishes since we still need some kind of technique to finish it efficiently.

It is clear that study habits play a significant role in our life, studies, and other endeavors. I realized that having study habits gives me an advantage over others towards my goal and pursuit to academic excellence. So, I strongly encourage you to try study habits, because you might find it very useful and applicable, not only in your academic performance, but more importantly in your daily undertaking in life.

## WHAT IS IT LIKE TO BE VACCINATED?

On November 13th, 2021, I awoke in my bed and was slowly beginning my day, I realized it was my vaccination day. I was a little scared at first, and all I could think about was what would happen after I was vaccinated. I was still sleepy after getting into the car, so I did what any other kid would do and asked my mom for some McDonald's. I got vaccinated and thought that a small injection would be the only pain I felt, or so I thought.

Before I could go home, the official health workers instructed everyone to rest for 15 minutes. After about 10 minutes, side effects began to kick in my right arm. I felt like I couldn't raise my arm properly and it hurt a lot. After getting inside the car, my arm swelled a little, adding weight to my muscles. After that, I went home and slept for a long time; when I woke up, I didn't really feel any difference, so I went to bed after dinner.

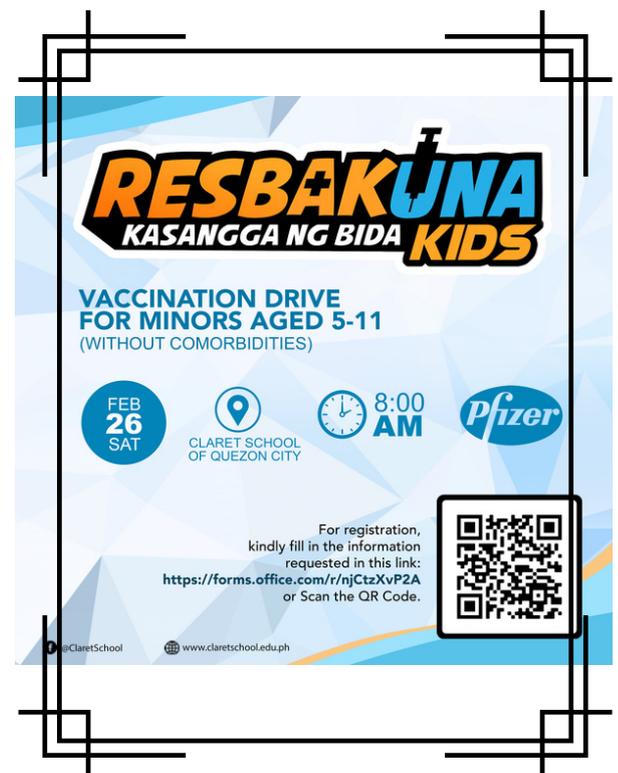

Before I tell you what happened the next day, I'd like to assure anyone who reads this that everything is normal and it's just the side effects of the vaccine that are to be held responsible.

Going back to my story, I woke up the next day and wanted to go back to bed. My arm hurt so much that I just wanted to sleep, so I slept for another 2 hours. I finally had the energy to get out of bed, but the day had only gotten worse. After eating breakfast, I was still sleepy when the top of my eyes began to hurt, as if I wanted to close them. Then my head began to hurt and my vision swirled. I quickly sat down and rested for a few moments before my mother noticed me. She assured me that everything was fine and that she would buy Biogesic syrup for me. So while I waited, I went back to bed, and my arm swelled even more, making it difficult to get back to sleep. My mom woke me up and told me to take my Biogesic now that she had gone home to get it, and the headache went away after a few minutes.

*Claret School of Quezon City, in partnership with the CS-PTA and the Quezon City local government, launched a vaccination drive for minors without comorbidities last February 26, 2022. Students and other interested parties were invited to register and get vaccinated.*

Ang Pasko ay isa sa mga paboritong okasyon nating mga Pilipino. Marami nang nagsisimula ng paghahanda sa pagdiriwang sa buwan pa lamang ng Setyembre. Nagsasabit ang mga tao ng parol sa harap ng kanilang mga bahay at naglalagay na rin sila ng kanilang mga *Christmas tree*. Makaririnig ka na rin ng iba't ibang awiting pamasko sa radyo. Makakikita ka rin sa mga pamilihan ng sari-saring pagkain na makikita mo lang kung Pasko, tulad ng kastanyas, queso de bola, hamon, at marami pang iba.

Marami ring tradisyon ang nagaganap sa panahong ito. Isa na rito ang Simbang Gabi kung saan ang mga tao ay nagsisimba sa madaling araw sa loob ng siyam na araw. Nagsasagawa naman ng karoling ang ilan sa pamamagitan ng pagkanta ng mga awiting pamasko sa tapat ng mga bahay. Ang Monito-Monita naman ay pagpapalitan ng mga regalo ng mga kapamilya at magkakaibigan.

Pinaghahandaan din ang Noche Buena kung saan nagsasalosalo ang pamilya sa hapag-kainan habang hinihintay ang ikalabindalawa ng hatinggabi. Ito rin ang paborito ko dahil maraming handang pagkain lalo na ang paborito kong *spaghetti*. Pagkatapos ng Noche Buena ay magbubukas na ng mga regalo.

Pero ang malungkot lang sa Paskong ito ay hindi ganap na kumpleto ang pamilya dahil sa pandemya. Maraming kababayan natin sa Visayas ang walang bahay at pagkain dahil nasalanta sila ng bagyong Odette. Subalit, ang diwa at himig ng Pasko ay hindi mawawala sa ating mga Pilipino. Ang mga pamilya ay sama-sama pa rin sa *online reunions* at marami ang nagbigay ng tulong sa mga nasalanta ng bagyo.

Likas sa ating mga Pilipino ang maging masayahin, magpagmahal, at matulungin lalo na tuwing Pasko. Ang dalangin ko ay sana araw-araw ay Pasko.

## *The Lighting of the Advent Wreath*

When December rolls around and you go to church, you see an evergreen wreath with lit purple and pink candles. What is it and what does it mean?

Advent is an important event in the Catholic church where we prepare for the coming of Jesus Christ. The Advent period include the four Sundays before Christmas. One of the traditions of the Advent season is the lighting of the Advent wreath.

The evergreen wreath or garland represents eternity and everlasting life in Christ. The four candles on the garland represent hope, faith, joy, and peace. One candle is lit every Advent Sunday. It is usually accompanied by prayers, bible verses, and devotional time. Sometimes, there is a fifth candle or the Christ Candle that represents purity, holiness, and light. It is usually placed in the middle of the wreath.

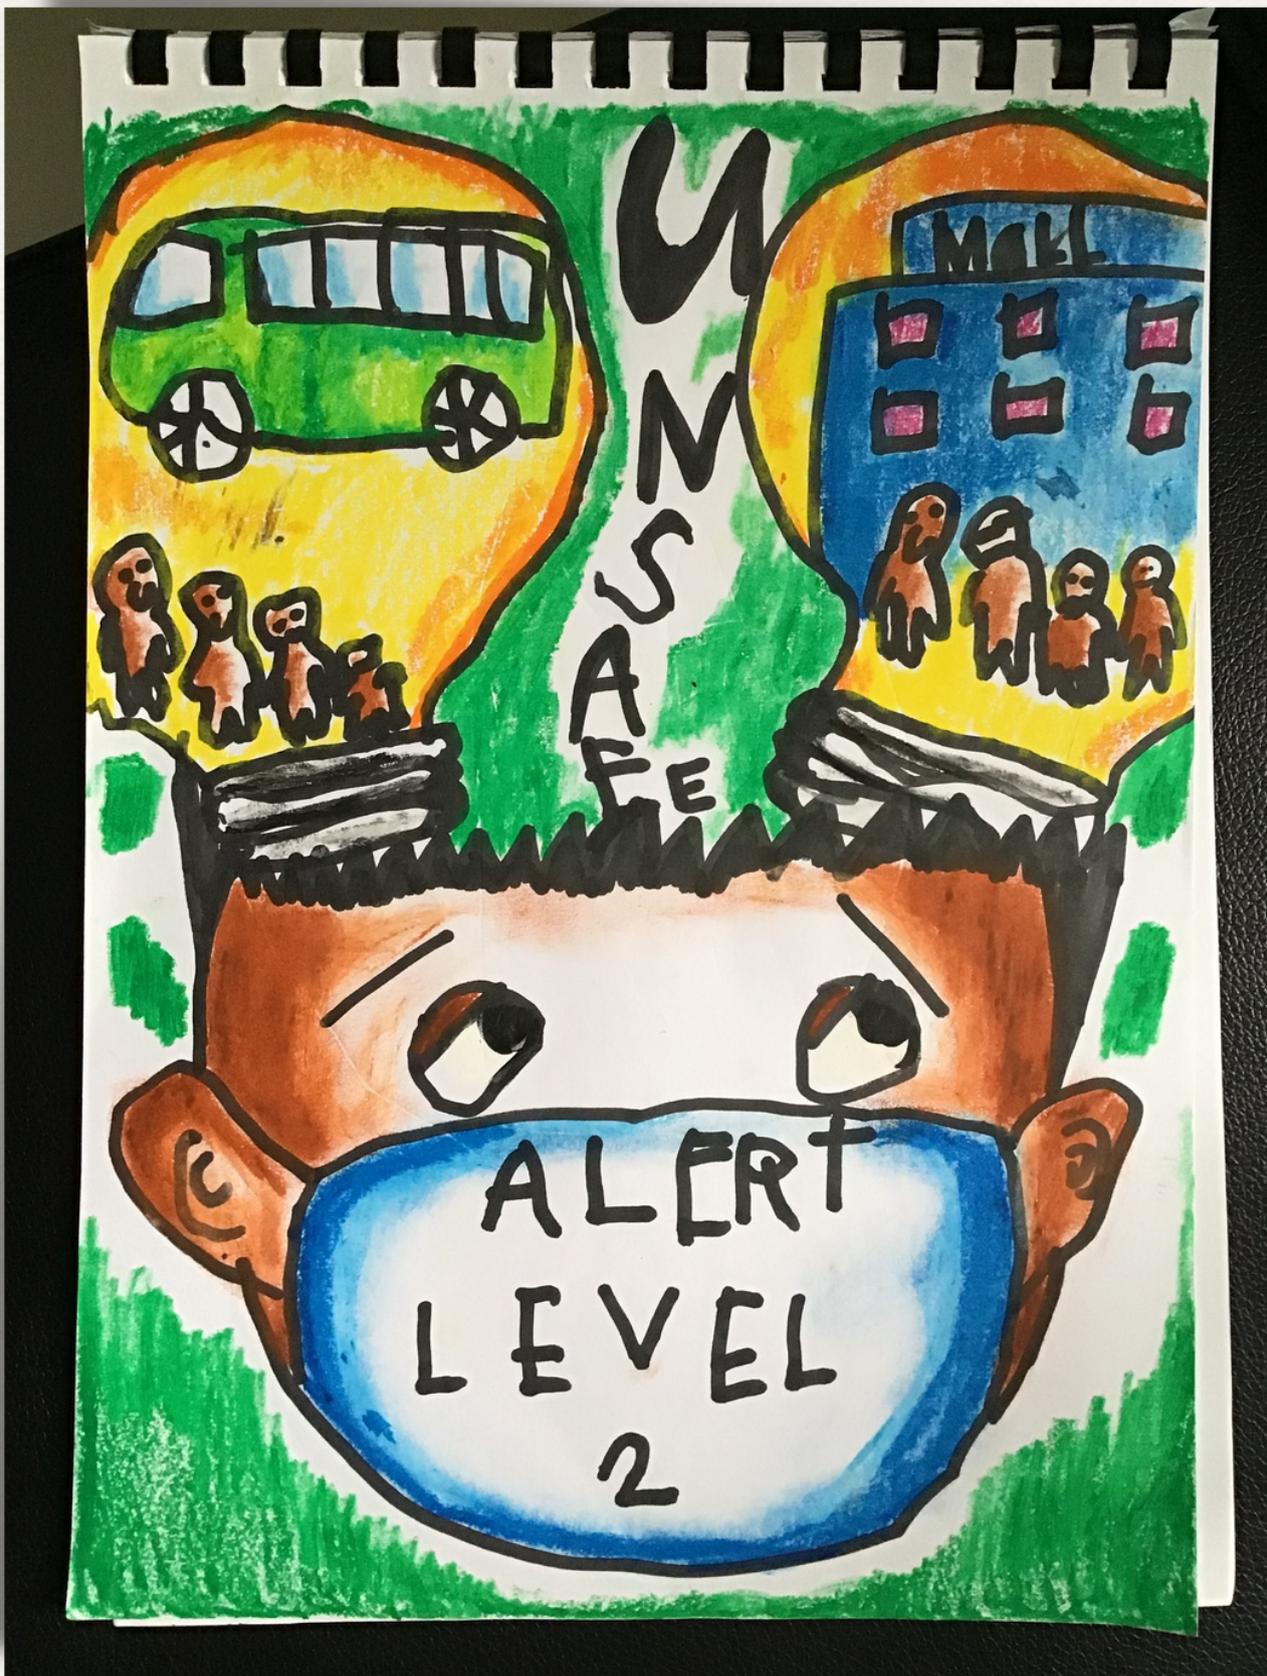

To sum it up, Advent is an important event that prepares us in anticipation of Jesus Christ's birth.

Happy Advent Season!

**RULES**

The rules for this math crossword puzzle are simple.

1. Use the given mathematical expressions to find the correct number needed in the crossword puzzle.
2. Carefully fill in the boxes based on the corresponding numbers of the mathematical expressions.
3. Remember that those in the across part have answers written horizontally (left to right) in the puzzle while those in the down have answers written vertically (up to down) in the puzzle.
4. In completing the puzzle, each box should only contain one digit (0-9). (for example, a three-digit number answer to the mathematical expression must occupy three boxes).

# Make 130

Use the numbers in the grid. Find *8 different pairs of numbers* that add up to 130.

|    |    |    |    |    |
